Dear Mitra,

I have looked through the cited references and they are all orthopedic in nature(molded to fit with an arch). Free Throws with Sole is not an orthopedic application and it is flat. It is used as a training device to improve ones stability while shooting basketball free throws.

Regards,

Dan

Mitra, I have included the claims the best I could.. I appreciate your patience and professionalism. I'm trying to avoid the expense of an attorney.

Best,

Dan
